

Planer Certification

Student:

Trainer:

Date:

Version: 0.1.1 - 2020-11-03

Certification required for: Grizzly 20" Planer (Wood Shop), Powermatic 20" Planer (Wood Shop)

Training Check-Off List:

Tool Anatomy

- Parts of the planer are properly identified

Pre-Operation

- Safety precautions are followed - safety glasses, proper clothing, work area cleared, etc.
- Stock is checked for issues/problems
- Supports or trained assistants are available to help with outfeed if necessary

Operation

- Dust collector is used properly
- Proper body position
- Table is adjusted properly
- Material is fed properly
- Understand the cutting depth limit as per the manufacturer (1/32" per pass)

Post-Operation

- Work area is cleaned

Lockout/Tagout Procedure

- Tool unplugged and plug wrapped in safe/visible location, barrel covers and locks, tag filled out and posted, front desk notified.

Planer Certification
